Intercepted phone call between Russian soldiers

Source : Jake Broe YouTube : <https://youtu.be/6zIWSm8Rvps>

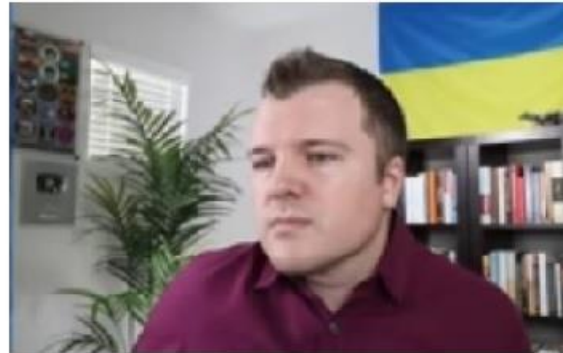

- Russians admit they raped and murdered ALL young women in Lyman
- Russians call Ukrainians : 'Hohols', curse word dehumanizing Ukrainians.
Much like the Nazi's calling Jews : 'Untermenschen' or 'Rats'

*(R1): F*cked and killed everyone. When we were surrendering Lyman, killed everyone, f*cking hohols...*

*All the younger men we took with us, and all the young women we f*cked, killed, shot.*

My motivation :

- My grandmother witnessed the bombing of Rotterdam in May 1940
- never believed we would see another war in Europe
- never believed Democracy would be attacked
 - US : attempted coup on jan 6th 2020
 - Brazil : attempted coup on jan 8th 2023
 - Germany : 25 extreme right arrests, planning a coup
 - Netherlands : FVD calls on people to protest at Parliament to remove the government

I'm not going standby, watch and do nothing !

The appeal of fascistoid movements :

- at the start they look fresh and new
- the Nazi's reduced unemployment almost to zero
- they built a large network of highways throughout Germany

But : we all know the Nazi's also started hate campaigns against Jews and non Arians and how that ended ...

Amsterdam 2023, Herengracht near FVD office

- FVD is fresh and new with lot of events (BBQ, summer camps)

But:

- FVD believes that ‘our Western culture is superior’
- FVD says Russia has not committed any war crime and should win
- FVD started a hate campaign against the government and our political system

Amsterdam 2023, Herengracht near FVD office

- FVD backs Russia
- FVD never condemned any Russian action or war crime.

No response when asked to condemn the attack on Timofey. Thierry Baudet , Raisa , Gideon: all stay silent ...

- Dangerous friends like Steve Bannon

- Every Dutch citizen that can vote.

My principles :

- Physical violence, stalking people or destruction of properties is not acceptable. My only weapon is information !
- FVD must be defeated in the ballot box in real democratic elections

How can you help : force FVD candidates to express their position.

- Website has a page for each candidate with a list of questions. You can also print the page and publicly display it.

Visit : <https://forumvoordemagogie.nl>

The FVD candidates run for public office and we have a right to know their position regarding human rights and violations of these rights.

Examples of questions :

- Was the attack on Timofey justified ?
- What do you feel about the systematic raping and killing of women in Ukraine ?
- see website
